## FRONT-END DEVELOPER

ramkishore@gmail.com | 9952982610 | [Linkedin](#) [Github](#) [Globe](#)

### SUMMARY

Developing responsive, modern, and user-friendly web applications using React.js, Tailwind CSS, JavaScript, and Node.js. Experienced in building interactive interfaces and integrating APIs to create smooth and intuitive user experiences. Currently learning Python backend development and strengthening problem-solving skills through Data Structures and Algorithms (DSA), while exploring modern technologies and contributing to open-source projects.

### EXPERIENCE

#### Internship, Mitsubishi Electric India Pvt Ltd

Feb 2025 – Jul 2025

- Developed a monitoring and analysis system for network activity across industrial devices, enabling efficient tracking of machine communication and improving operational visibility through real-time insights.
- Designed and implemented responsive front-end modules using React.js to visualize real-time network and machine data, providing an intuitive dashboard for monitoring industrial device performance and status.

### PROJECT

#### Development of OT Monitoring System

Feb 2025 – July 2025

**Tech stack :** React.js, REST APIs, WebSockets, Recharts/Chart.js, Git.

- Created interactive React.js monitoring dashboards with Recharts/Chart.js to present complex industrial network and machine metrics in a clear, visually intuitive format.
- Implemented real-time data visualization using WebSockets, enabling dynamic updates of machine activity and network conditions without requiring page refreshes.

#### Smart Health Management System for Migrants

Aug 2025 – Sept 2025

**Tech stack :** React.js, Node.js, Express.js, MongoDB, APIs, QR Code Integration, JWT Authentication

- Developed responsive and user-friendly React.js interfaces for multilingual digital health-record management, enabling efficient access to patient information.
- Integrated QR-code-based record retrieval and REST APIs into the frontend, providing a seamless workflow for doctors to securely access patient medical history.

### KEY SKILLS

- |                |              |              |
|----------------|--------------|--------------|
| • React.js     | • Axios      | • Python     |
| • Tailwind CSS | • Node.js    | • Express.js |
| • Git & GitHub | • PostgreSQL | • MySQL      |

### EDUCATION

#### B.Tech Information Technology

Sep 2023 – Present

Sri Venkateswara College of Engineering  
CGPA: 8.590

#### 12th grade

Jun 2021 – Mar 2022

Vidya Mandir Matric. Hr. Sec. School  
95.83%

### ACHIEVEMENTS

- Won Smart India Internal Hackathon – Sep 2025
- Participated BIS Hackathon – 2024
- Participated in GRAND PRIX OF CODE event – 2026
